Education

B.Tech in Computer Science CGPA: 8.92/10—2023-2027
Vishnu Institute Of Technology *Bhimavaram,AP*

Experience

Full-Stack Developer Intern July 2026 – Present
DefenceMinia Technologies *Remote*

- Developed WorkPulse, a full-stack HRMS using React.js, Node.js, Express.js, and MongoDB, implementing REST APIs, JWT authentication, role-based access, and scalable backend features.

Web Development Intern May 2025 – August 2025
Talent Trek *Remote*

- Developed WheelWise using Node.js, Express.js, MongoDB, and JavaScript, implementing REST APIs, JWT authentication, frontend integration, and scalable backend features.

Projects

ThreatLens AI | *React.js, Node.js, Express.js, FastAPI, Python, MongoDB, Random Forest, VirusTotal, Chrome MV3*

- Built an ML-powered malicious URL detection and browser protection system combining heuristic analysis, Random Forest classification, and VirusTotal threat intelligence to generate explainable 0 to 100 risk scores.
- Developed a Chrome MV3 extension with AI-powered security explanations and user-controlled ALLOW/WARN/BLOCK policies, supported by secure authentication, automatic token refresh, allowlists, and blocklists.
- Implemented weighted risk fusion across heuristic, ML, and VirusTotal scores, with Gemini-powered LLM explanations for user-friendly security insights.

WorkPulse | *React.js, Node.js, Express.js, MongoDB, JWT, Socket.IO, Cloudinary*

- Built and deployed a full-stack HRMS with RBAC for 5 roles and 14+ modules, featuring secure JWT authentication, real-time Socket.IO communication, automated attendance workflows, and Cloudinary integration. Tested and validated REST APIs using Postman.

WheelWise | *JavaScript, Node.js, Express.js, MongoDB, JWT, Razorpay, Cloudinary*

- Built and deployed a full-stack vehicle marketplace with JWT/RBAC, buyer-seller dashboards, favourites, cart, reviews, Razorpay payments, order tracking, cloud uploads, and protected REST APIs.

ShadowNotes | *JavaScript, Node.js, Express.js, MongoDB, JWT, Web Crypto API*

- Built a security-focused notes app with client-side AES-GCM encryption, PBKDF2 key derivation, JWT authentication, refresh-token rotation with reuse detection, protected REST APIs, and security measures including Helmet, rate limiting, and input sanitization.

Technical Skills

Programming Languages: Java, JavaScript, Python, C, SQL

Web Technologies: HTML5, CSS3, React.js, Tailwind CSS, Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, Firestore

Developer and testing tools: Git, GitHub, VS Code, Postman, Bruno

Core CS: Data Structures and Algorithms, OOP, DBMS, SDLC, Computer Networks, OS.

Certifications

Palo Alto Networks Cybersecurity Virtual Internship EduSkills
Issued: 2026

Deep Learning Specialization NVIDIA Deep Learning Institute
Issued: 2025

MERN Stack Certification SmartBridge
Issued: 2026
